

## **Mock-up Cabin & Check-in Areas**

At J.A.R.E. Airline Training Partnership we have an unrivalled experience, over many years, of building mock-up cabins and check-in areas as well as providing airline, airport and aviation support equipment which has been successfully used in over 90 colleges & schools across the UK.

We offer a range of both full mock-ups like the example below as well a range of half mock-up cabins & check-in areas as alternatives to match with an institution's specific budget, space and other considerations.

We can build you a range of Mock-up cabin options which are shown on the following page – just ask us for your specific requirements.

These are just a few recent examples of the many options we can offer.

## **Examples of both Full & Half Mock-up Cabins & Check-in Areas**

**Example of a four row mock-up cabin within a classroom**

**Example of a larger mock-up across a classroom**

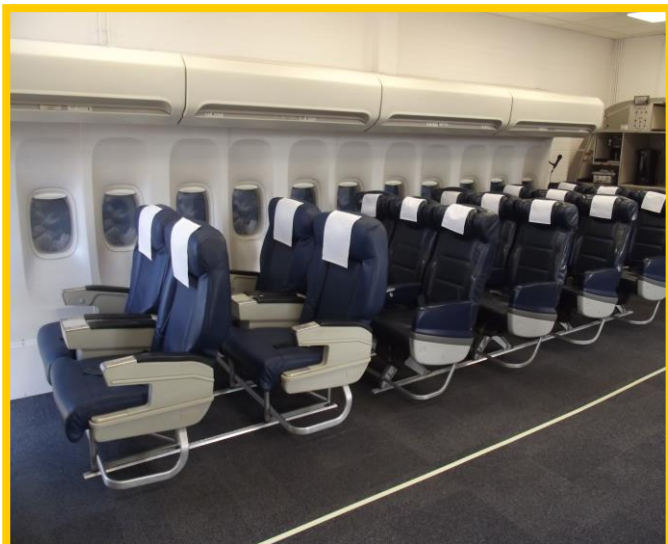

**Another mock-up cabin option in a smaller classroom with 2 class seating**

## More examples of Half Mock-up Cabins & Check-in Areas

Example of a four row mock-up cabin and Check-in + Galley within a classroom

Larger Half Mock-up Cabin + Check-in Set-up in same room with Security Arch

Our Boeing B737 Trainer Aircraft - we can supply similar aircraft and/or cut down sections and sizes i.e. cut to floor etc., including mock-ups and actual Flight Deck sections can also be made to specific requests based on our own complete B737 Flight Deck shown above.

## Other examples of Half Mock-up Cabins & Check-in Areas

**Example of a leather four row mock-up cabin**

**Gravity Conveyor**

**Double Business Leather Seat Mock-up**

**Larger Mock-up + Check-in**

**Two examples of a mock-up cabin + check-in area in a larger base-type room**

**For more information, ideas and help with your own specific mock-up cabin and/or check-in area requirement, please contact:**
